

Course List, School of Design and Architecture(Common)

Supervising faculty member	Subject	Course level / day of week / period	Language
1 Dean of the graduate school, Director of Kita Chikusa Branch of Library and Information Processing Center, 6 adjunct instructors	Special Lecture on Design and Architecture	2nd half period of the 2nd semester: Tuesday, 3rd period and 4th period	Japanese
2 Tomoaki Kageyama, Masayuki Kageyama, Takashi Kato, Eri Kaminuma, Yasuyuki Kurihara, Kenri Kodaka, Kei Kobayashi, Toshihiro Sakuma, Nobuo Takahashi, Sei-ichi Tsujimura, Ryu Nakagawa, Dai Hanawa, Neda Firfova, Takahiro Matsumoto, Mikako Mizuno, Junko Mori, Kiyoko Yokoyama	Off-campus Internship Project A (Design Area)	1st half period of the 2nd semester of the 1st year: 6 weeks. October 3- November 11 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
3 Yasuyuki Ito, Akihiko Ono, Satoru Kaku, Toshimitsu Kuno, Kouji Shida, Kenichi Suzuki, Masato Mizoguchi, Takeshi Mukaiguchi	Off-campus Internship Project A (Architectural Design Area)	1st half period of the 2nd semester of the 1st year: 6 weeks. October 3- November 11 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
4 Takayoshi Aoki, Toshiaki Kimura	Off-campus Internship Project A (Architectural Structure Area)	1st half period of the 2nd semester of the 1st year: 6 weeks. October 3- November 11 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
5 Masayuki Harada, Gyuyoung Yoon, Tai Satoh	Off-campus Internship Project A (Architectural Equipment Area)	1st half period of the 2nd semester of the 1st year: 6 weeks. October 3- November 11 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
6 Supervising faculty member	Off-campus Internship Project A (Interdisciplinary Area)	1st half period of the 2nd semester of the 1st year: 6 weeks. October 3- November 11 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
7 Yasuyuki Ito, Akihiko Ono, Satoru Kaku, Toshimitsu Kuno, Kouji Shida, Kenichi Suzuki, Masato Mizoguchi, Takeshi Mukaiguchi	Off-campus Internship Project B (Architectural Design Area)	Spring vacation of the 1st year, or 1st semester of the 2nd year: 2 weeks (Start date and end date to be fixed individually according to each student) 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
8 Takayoshi Aoki, Toshiaki Kimura	Off-campus Internship Project B (Architectural Structure Area)	Spring vacation of the 1st year, or 1st semester of the 2nd year: 2 weeks (Start date and end date to be fixed individually according to each student) 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
9 Masayuki Harada, Gyuyoung Yoon, Tai Satoh	Off-campus Internship Project B (Architectural Equipment Area)	Spring vacation of the 1st year, or 1st semester of the 2nd year: 2 weeks (Start date and end date to be fixed individually according to each student) 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)

10 Supervising faculty member	Off-campus Internship Project B (Interdisciplinary Area)	Spring vacation of the 1st year, or 1st semester of the 2nd year: 2 weeks (Start date and end date to be fixed individually according to each student) 7 hours (9:00 - 12:00, 13:00 - 17:00) on weekdays (from Monday to Friday)	Japanese (English also acceptable)
11 Main supervising faculty member, assistant supervising faculty member	Advanced Study	Full year	Japanese (English also acceptable)

Year of course	Academic year 2022
Subject	Special Lecture on Design and Architecture
Supervising faculty member	Dean of the graduate school, Director of Kita Chikusa Branch of Library and Information Processing Center, 6 adjunct instructors
Number of credits	2 credits
Course level / day of week / period	2nd half period of the 2nd semester: Tuesday, 3rd period and 4th period
Language	Japanese
Subtitle	
Mode of class	Lecture
Objective/ goal of course	This course aims to teach students, through a wealth of actual examples, the profound knowledge and experience of research and development related to design and architecture in the real world.
Key words	
Related diploma policy	
Attainment goal	
Grade evaluation criteria □	
Outline of course	Students receive lectures on methods of literature retrieval, and advanced theories and technologies of visual design, product design, information and communication engineering, architectural design, urban planning, the environmental field, information environment design, industrial innovation design and the architecture and urban design field, incorporating actual examples. Lectures are presented in omnibus format by Director of the Library and Information Processing Center Kita Chikusa Branch and researchers and practitioners active on the front lines of their specialized fields.
Program of course	Date, time and lecturer will be announced on the bulletin board.
Learning out of the school hour	Study the research activities and academic field of each lecturer as preparation. After lecture ,review the contents of the lecture to deepen understanding.
Performance criteria	Evaluation is based on attendance rate and attitude in class.

Year of course	Academic year 2022
Subject	Off-campus Internship Project A (Design Area)
Supervising faculty member	Tomoaki Kageyama, Masayuki Kageyama, Takashi Kato, Eri Kaminuma, Yasuyuki Kurihara, Kenri Kodaka, Kei Kobayashi, Toshihiro Sakuma, Nobuo Takahashi, Sei-ichi Tsujimura, Ryu Nakagawa, Dai Hanawa, Neda Firfova, Takahiro Matsumoto, Mikako Mizuno, Junko Mori, Kiyoko Yokoyama
Number of credits	6 credits
Course level / day of week / period	1st half period of the 2nd semester of the 1st year: 6 weeks. October 3– November 11 7 hours (9:00 – 12:00, 13:00 – 17:00) on weekdays (from Monday to Friday)
Language	Japanese (English also acceptable)
Subtitle	
Mode of class	Practical work experience (internship) at a company, research institute, public office, etc. , or short-term study abroad at a foreign institution
Objective/ goal of course	This course aims to allow students to acquire practical techniques used in the information environment design area or industrial innovation design area by undertaking practical work experience, etc. by utilizing what they have learned in lectures, seminars, etc.
Key words	
Related diploma policy	
Attainment goal	Students aim to acquire the ability to practically process operations at companies, research institutes, etc.
Grade evaluation criteria □	
Outline of course	Students are engaged in assisting work, etc. under the guidance of practical supervisors at companies, research institutes, public offices, etc.
Program of course	<p>May: Students receive advice and guidance from their supervising faculty member about their preferred themes, internship providers, etc.</p> <p>June: The supervising faculty member asks the internship providers about their acceptance of students, and obtains their informal consent.</p> <p>Early July: First guidance (on-campus)</p> <p>Late July: Due date for submission of Student Record and other required documents</p> <p>Early August: The Office of Graduate School of Design and Architecture sends the request for internship acceptance to the internship providers.</p> <p>Late August: Due date for internship acceptance consent</p> <p>Late September: The Office of Graduate School of Design and Architecture sends a Letter of Commission to the internship providers.</p> <p>Late September: Second guidance (on-campus)</p> <p>Early October – Mid-November: Commencement of the Internship Project (6 weeks).</p> <p>Late November: Due date for submission of the Report</p> <p>Early December: On-campus Debrief Session</p>
Learning out of the school hour	Practical supervisors instruct the preparation and review contents according to the practical work.
Performance criteria	Evaluation is made by the special research supervising faculty member based on the evaluation sheet prepared by the practical supervisor at the internship provider (Form 7), the student's report (Form 6) and the on-campus debrief session.

Mode of class	Practical work experience (internship) in architectural design at an office of a first-grade registered architect
Objective/ goal of course	This course aims to allow students to acquire practical and advanced architectural design techniques while undertaking work in architectural design or construction management at an office of a first-grade registered architect by utilizing what they have learned from lectures, seminars, etc.
Key words	
Related diploma policy	
Attainment goal	Students aim to acquire practical ability related to architectural design or construction management to meet qualification for the examination of architects (practical experience requirements) in accordance with the "Act for Partial Amendment of the <i>Kenchikushi</i> Law and the Related Regulations for Architects & Building Engineers" (Notice No. 1313, Ministry of Land, Infrastructure, Transport and Tourism, September 2, 2008).
Grade evaluation criteria □	
Outline of course	Students are engaged in assisting work related to architectural design, such as preparation of design books in the stages from planning to execution design, under the guidance of architect at an architect office.
Program of course	<p>1. May: Students receive advice and guidance from their supervising faculty member about their preferences for the first-grade registered architect office to undertake an internship.</p> <p>2. June: The supervising faculty member asks the target first-grade registered architect offices about their willingness to accept the internship, and obtains their informal consent.</p> <p>When the supervising faculty member obtains the informal consent from any candidate first-grade registered architect office, he/she submits the "Off-campus Internship Project Report" (Form 1) to the Office of Graduate School of Design and Architecture.</p> <p>3. Early July: First guidance (on-campus): Distribution of the course study manual, explanation of the documents to be submitted, etc.</p> <p>4. Late July: Due date for submission of Student Record and other required documents (to the Office of Graduate School of Design and Architecture)</p> <p>Student Investigation Record (Form 2) ... 2 copies, Letter of Commitment (Form 3), Notice of Deployment, etc. (Form 4), Application for Student Commuter Pass for Internship (Form 10), Internship insurance premium</p> <p>5. Early August: Internship acceptance request (The Office of Graduate School of Design and Architecture sends the request under the name of the Dean of Graduate School of Design and Architecture to each candidate first-grade registered architect office.)</p> <p>6. Late August: Due date for the internship acceptance consent</p> <p>(The Office of Graduate School of Design and Architecture receives the reply from the first-grade registered architect offices who have accepted the internship regarding the practical supervisor and the internship theme.)</p> <p>7. Late September: Commissioning the host first-grade registered architect office to appoint the practical supervisor responsible for the internship</p> <p>(The Office of Graduate School of Design and Architecture sends a Letter of Commission to the host first-grade registered architect offices.)</p> <p>8. Late September: Second guidance (on-campus): Issuance of the Notice of Deployment, etc., and explanation of precautions</p> <p>Specific content, schedule, etc. of the internship for architectural design are fixed through deliberations by and among the practical supervisor responsible for internship at the host first-grade registered architect office, the intern student and the supervising faculty member before the second guidance.</p> <p>9. Early October: Start of the Internship Project (6 weeks) to end in mid-November</p> <p>The intern student begins assisting work of architectural design, such as design book preparation, at the host first-grade registered architect office.</p> <p>When the supervising faculty member visits the host first-grade registered architect office, he/she prepares the Investigation Report (Form 5) to the Dean of the Graduate School of Design and Architecture via the Office of the Graduate School of Design and Architecture after returning to his/her office.</p> <p>10. Late November: Due date for the Report (Form 6) (Submission from the student to the supervising faculty member)</p> <p>Due date for the Evaluation Report (Form 7) (Submission from the practical supervisor responsible for internship at the host first-grade registered architect office to the Dean of the Graduate School of Design and Architecture via the Office of the Graduate School of Design and Architecture, and to the supervising faculty member)</p> <p>11. Early December: On-campus Debrief Session</p> <p>12. Late December: Evaluation of the internship result (based on the Evaluation Report (Form 7), the Report (Form 6), Visit by the supervising faculty member, and the On-campus Debrief Session)</p>
Learning out of the school hour	Collect information on the design practices for internship program, also prepare and review in every time as instructed by host instructor.
Performance criteria	The supervising faculty member makes an evaluation based on the Evaluation Report (Form 7) prepared by the practical supervisor responsible for internship at the host first-grade registered architect office, the Report (Form 6) prepared by the intern student, and the On-campus Debrief Session.

Grade evaluation criteria □	
Outline of course	Students are engaged in assisting work related to architectural design particularly in the execution design stage, or construction management under the guidance of architects at an architect office.
Program of course	<p>As a general rule, students are engaged in assisting work related to architectural design, such as preparation of design books, at the host first-grade registered architect offices of Off-campus Internship Project A. In some cases, however, students may undertake work at other first-grade registered architect offices. The following example of course program is for an internship starting in mid-March.</p> <ol style="list-style-type: none"> 1. Early January: Students receive advice and guidance from their supervising faculty member about their preferences for the first-grade registered architect office to undertake an internship. 2. Late January: The supervising faculty member asks the target first-grade registered architect offices about their willingness to accept the internship, and obtains their informal consent. <p>When the supervising faculty member obtains the informal consent from any candidate first-grade registered architect office, he/she submits the "Off-campus Internship Project Report" (Form 1) to the Office of Graduate School of Design and Architecture.</p> <ol style="list-style-type: none"> 3. Early February: Due date for submission of Student Record and other required documents (to the Office of Graduate School of Design and Architecture) <p>Student Investigation Record (Form 2) ... 2 copies, Letter of Commitment (Form 3), Notice of Deployment, etc. (Form 4), Application for Student Commuter Pass for Internship (Form 10), Internship insurance premium</p> <ol style="list-style-type: none"> 4. Mid-February: Internship acceptance request (The Office of Graduate School of Design and Architecture sends the request under the name of the Dean of Graduate School of Design and Architecture to each candidate first-grade registered architect office.) 5. End of February: Due date for the internship acceptance consent (The Office of Graduate School of Design and Architecture receives the reply from the first-grade registered architect offices who have accepted the internship regarding the practical supervisor and the internship theme.) 6. Early March: Commissioning the host first-grade registered architect office to appoint the practical supervisor responsible for the internship (The Office of Graduate School of Design and Architecture sends a Letter of Commission to the host first-grade registered architect offices.) 7. Early March: Guidance (on-campus): Issuance of the Notice of Deployment, etc., and explanation of precautions <p>Specific content, schedule, etc. of the internship for architectural design are fixed through deliberations by and among the practical supervisor responsible for internship at the host first-grade registered architect office, the intern student and the supervising faculty member before the guidance.</p> <ol style="list-style-type: none"> 8. Mid-March: Start of the Internship Project (2 weeks) to end at the end of March <p>The intern student begins assisting work of architectural design, such as design book preparation, at the host first-grade registered architect office.</p> <p>When the supervising faculty member visits the host first-grade registered architect office, he/she prepares the Investigation Report (Form 5) to the Dean of the Graduate School of Design and Architecture via the Office of the Graduate School of Design and Architecture after returning to his/her office.</p> <ol style="list-style-type: none"> 9. Mid-April: Due date for the Report (Form 6) (Submission from the student to the supervising faculty member) Due date for the Evaluation Report (Form 7) (Submission from the practical supervisor responsible for internship at the host first-grade registered architect office to the Dean of the Graduate School of Design and Architecture via the Office of the Graduate School of Design and Architecture, and to the supervising faculty member) 10. Late April: On-campus Debrief Session 11. Early May: Evaluation of the internship result (based on the Evaluation Report (Form 7), the Report (Form 6), Visit by the supervising faculty member, and the On-campus Debrief Session)
Learning out of the school hour	Collect information on the design practices for internship program, also prepare and review in every time as instructed by host instructor.
Performance criteria	The supervising faculty member makes an evaluation based on the Evaluation Report (Form 7) prepared by the practical supervisor responsible for internship at the host first-grade registered architect office, the Report (Form 6) prepared by the intern student, and the On-campus Debrief Session.

Year of course	Academic year 2022
Subject	Off-campus Internship Project B (Architectural Structure Area)
Supervising faculty member	Takayoshi Aoki, Toshiaki Kimura
Number of credits	2 credits
Course level / day of week / period	Spring vacation of the 1st year, or 1st semester of the 2nd year: 2 weeks (Start date and end date to be fixed individually according to each student) 7 hours (9:00 – 12:00, 13:00 – 17:00) on weekdays (from Monday to Friday)
Language	Japanese (English also acceptable)
Subtitle	
Mode of class	Practical work experience (internship) in structural design at the office run by first-grade registered architects
Objective/goal of course	This course aims to allow students to acquire practical and advanced structural design techniques while undertaking work in structural design and construction management at an office of a first-grade registered architect by utilizing what they have learned from lectures, seminars, etc.
Key words	
Related diploma policy	
Attainment goal	Students aim to acquire practical ability related to architectural design and construction management to meet qualification for the examination of architect (practical experience requirements) in accordance with the "Act for Partial Amendment of the <i>Kenchikushi</i> Law and the Related Regulations for Architects & Building Engineers" (Notice No. 1313 of the Ministry of Land, Infrastructure, Transport and Tourism, September 2, 2008).
Grade evaluation criteria □	
Outline of course	Students are engaged in assisting work related to structural design particularly in the execution design stage or construction management under the guidance of architect at an architect office.
Program of course	<p>As a general rule, students are engaged in assisting work related to structural design, such as preparation of design books, at the host first-grade registered architect offices for Off-campus Internship Project A. In some cases, however, students may undertake work at other first-grade registered architect offices. The following example course program is for an internship starting in mid-March.</p> <ol style="list-style-type: none"> 1. Early January: Students receive advice and guidance from their supervising faculty member about their preferences for the first-grade registered architect office to undertake an internship. 2. Late January: The supervising faculty member asks the target first-grade registered architect offices about their willingness to accept the internship, and obtains their informal consent. When the supervising faculty member obtains the informal consent from any candidate first-grade registered architect office, he/she submits the "Off-campus Internship Project Report" (Form 1) to the Office of Graduate School of Design and Architecture. 3. Early February: Due date for submission of Student Record and other required documents (to the Office of Graduate School of Design and Architecture) Student Investigation Record (Form 2) ... 2 copies, Letter of Commitment (Form 3), Notice of Deployment, etc. (Form 4), Application for Student Commuter Pass for Internship (Form 10), Internship insurance premium 4. Mid-February: Internship acceptance request (The Office of Graduate School of Design and Architecture sends the request under the name of the Dean of Graduate School of Design and Architecture to each candidate first-grade registered architect office.) 5. End of February: Due date for the internship acceptance consent (The Office of Graduate School of Design and Architecture receives the reply from the first-grade registered architect offices who have accepted the internship regarding the practical supervisor responsible and the internship theme.) 6. Early March: Commissioning the host first-grade registered architect office to appoint the practical supervisor responsible for the internship (The Office of Graduate School of Design and Architecture sends a Letter of Commission to the host first-grade registered architect offices.) 7. Early March: Guidance (on-campus): Issuance of the Notice of Deployment, etc., and explanation of precautions Specific content, schedule, etc. of the internship for structural design are fixed through deliberations by and among the practical supervisor responsible for internship at the host first-grade registered architect office, the intern student and the supervising faculty member before the guidance. 8. Mid-March: Start of the Internship Project (2 weeks) to end at the end of March The intern student begins assisting work of structural design, such as design book preparation, at the host first-grade registered architect office. When the supervising faculty member visits the host first-grade registered architect office, he/she prepares the Investigation Report (Form 5) to the Dean of the Graduate School of Design and Architecture via the Office of the Graduate School of Design and Architecture after returning to his/her office. 9. Mid-April: Due date for the Report (Form 6) (Submission from the student to the supervising faculty member) Due date for the Evaluation Report (Form 7) (Submission from the practical supervisor responsible for internship at the host first-grade registered architect office to the Dean of the Graduate School of Design and Architecture via the Office of the Graduate School of Design and Architecture, and to the supervising faculty member) 10.
